ADMINISTRATIVE COMMITTEE  
FOR THE TIR CONVENTION, 1975

**TIR Executive Board (TIRExB)**

(Thirty-ninth session, 17 and 18 March 2009,  
agenda item 11)

**NATIONAL CONTROL MEASURES**

**Transmitted by the government of Estonia**

The secretariat reproduces below a request by the Estonian Customs authorities to the TIRExB to provide its considerations with regard to the conformity of a certain vehicle type with the provisions of the TIR Convention.

The vehicle concerned has been authorized in Germany, but the Estonian Customs authorities when, upon specific request by a carrier, re-examining the vehicle, have expressed doubt as to whether this type of vehicle conforms to the provisions of the TIR Convention, in particular those of Annex 2, Article 1 (c) and (d).

According to the information received, the specific type of vehicle floor is required, in accordance with German national legislation, to securely fix heavy objects with a weight over 20 tonnes.
