COMMISSION DE CONTROLE TIR (TIRExB)

7 May 2012

ИСПОЛНИТЕЛЬНЫЙ СОВЕТ МДП (ИСМДП)

Original: English

Administrative Committee for the TIR Convention, 1975

TIR Executive Board (TIRExB)

Fiftieth session

Athens, 14–15 May 2012

Agenda item 16

Other matters

Below, the secretariat reproduces a communication from Denmark for consideration by the Board.

Please be advised that the Danish Customs authorities still find quite many Turkish registered and TIR approved vehicles equipped with a NON compliant TIR wire.

The wire consists of three layers:

- (1) A center cord made of nylon or plastic;
- (2) A fine woven mask made of thin steel-string;
- (3) An outer cover – transparent plastic.

This construction makes the wire stretchable (very elastic) – and it does not fulfill the requirements as outlined in Annex 2, Art. 3 paragraph 9.

Please find attached 2 photos of a Turkish registered trailer, TIR transport, with destination Denmark with a close-up of the TIR wire used

Med venlig hilsen / Best regards
