Economic Commission for Europe

Inland Transport Committee

**Working Party on Customs Questions affecting
Transport**

**Informal Ad hoc Expert Group on Conceptual and
Technical Aspects of Computerization of the TIR Procedure**

Twenty-seventh session

Geneva, 4-5 December 2017

Item 5(b) of the provisional agenda

Reference Model of the TIR Procedure

Version 4.2 of the eTIR conceptual, functional and technical documentation

eTIR technical specifications - Version 4.2a

(formerly design workflow)

Usage and disclaimer clause

This document and translations of it may be copied and furnished to others, and derivative works that comment on or otherwise explain it or assist in its implementation, may be prepared, copied, published and distributed, in whole or in part, without restriction of any kind. However, this document itself and its translations available on the UNECE website may not be modified in any way, such as by removing the references to UNECE.

Disclaimer: *Materials provided in this document are provided “as is”, without warranty of any kind, either express or implied, including, without limitation, warranties of merchantability, fitness for a particular purpose and non-infringement. The United Nations specifically does not make any warranties or representations as to the accuracy or completeness of any such materials. The United Nations may add, change, improve or update the materials in this document without notice. Under no circumstances shall the United Nations be liable for any loss, damage, liability or expense incurred or suffered that is claimed to have resulted from the use of this document, including, without limitation, any fault, error, omission, interruption or delay with respect thereto. Under no circumstances, including but not limited to negligence, shall the United Nations or its affiliates be liable for any direct, indirect, incidental, special or consequential damages, even if the United Nations has been advised of the possibility of such damages.*

The user specifically acknowledges and agrees that the United Nations is not liable for any conduct of any user. As a condition of using these materials, the user agrees to indemnify the United Nations and its affiliates from and against any actions, claims, losses, damages, liabilities and expenses arising out of the user's use of these materials. If the user is dissatisfied with any material in this document, the user's sole and exclusive remedy is to discontinue using this document.

Nothing herein shall constitute or be considered to be a limitation upon or a waiver of the privileges and immunities of the United Nations, which are specifically reserved.

Design workflow (English Only)

1. Classes

1.1. Class diagrams

2. Activity

2.1. Detailed activity diagrams

To be filled in at a later stage.

2.2. Detailed sequence diagrams

To be filled in at a later stage.

2.3. Messages Implementation

2.3.1. XML

The implementation of the eTIR XML messages follows the WCO Data Model XML Guidelines.

2.3.1.1 XML Schema and code lists

XML Schema Definition (XSD) version 0.4 (as well as codelists) are published on the eTIR website and are available for download (etir.unece.org).

2.3.1.2 Core data types

The following core data types' attributes are not shown in the message descriptions presented in the functional specifications but are part of the XSDs. The code lists for each attribute are indicated in brackets, together with an indication whether the use of the attribute is optional or mandatory). Restriction on values of code to be used are also indicated.

- DATE TIME. TYPE
 - Date Time. Format. Code (Mandatory)
 - codes limited to 304 (CCYYMMDDHHMMSSZZZ) and 102 (CCYYMMDD)
- MEASURE. TYPE
 - Measure Unit. Code (CL21 - Mandatory)
- TEXT. TYPE
 - Language. Identifier (CL20 – Optional)
 - In case the language identifier is not used, the text will be considered to be in the English language.

2.3.1.3 Cross Reference (English only)

a. Metadata

eTIR name	WCO ID	Format	Codelist	Mapping to XML
