Please note that the distribution of documentation for the Working Party on Rail Transport (SC.2) is no longer "restricted". Accordingly, the secretariat has adopted a new numbering system whereby all working documents other than Reports and Agendas will be numbered as follows: TRANS/SC.2/year/serial number. Reports, Agendas, resolutions and major publications will retain their previous numbering system (i.e. TRANS/SC.2/189).

**GE.99-**

**HUNGARY**

The Government of Hungary has found that the section E-71 might not be distinguished correctly from the section E-69. In order to avoid any ambiguity, it is proposed to change the name of the station "Murakeresztúr" to that of "Dombóvár" in E-71, and to include the line Murakeresztúr-Gyékényes as line E-691.

Accordingly, the Government of Hungary has requested to submit that amendment for the consideration of the Working Party as one without any international implication.
