remarks to column (6)

[274] There was a decision at the last Joint Meeting to delete this SP for this UN No.

xxx see INF 46. The following sentence should be added to this new SP:

Substances which have a initial boiling point above 35 °C determined with this method are substances of packing group II and shall be classified in accordance with the applicable entry of this packing group.

remark to the report

the following sentence should be added in the report:

SP 640x applies to these entries of UN No 1267, 1268 and 3295 which have a initial boiling point below or equal of 35 °C and a vapour pressure at 50 °C below 110 kPa.
