RESOLVING OF INTERPRETATION ISSUES AND REQUIREMENTS FOR THE  
TECHNICAL SERVICES

PROPOSAL FOR DRAFT AMENDMENTS TO DOCUMENT TRANS/WP29/2005/92

**A. PROPOSAL**

Paragraph F., add at the end of a new subparagraph to read:

"In the case of the processes described in paragraphs A.1 and B, the Authority initiating the transmission of information should pay attention to the confidentiality of documents given by the applicant for approval. Only the strict necessary documentation to take position on the cases should be forwarded to other Authorities and/or Technical Working Parties."

**B. JUSTIFICATION**

In the processes described in paragraphs A.1 and B, documentation from the applicant for approval might be circulated to other Contracting Parties and to participants to Working Parties. As this information relates to new and/or innovative products not yet on the market, particular attention should be paid to the confidentiality of part of this information to avoid competition problems.
