Proposal for amendment to Table C

Transmitted by Cefic (European Chemical Industry Council)

I. Introduction

With reference to document ECE/TRANS/WP.15/AC.2/2012/11 (Cefic), it has been noticed that there is an error in column 5 of Table C for UN 1005 (Ammonia, anhydrous). The reference to danger “2.1” should be removed and only the reference to danger label “2.3” should be kept. Therefore Cefic is proposing an additional amendment.

II. Justification

A reference to “2.1” does neither figure in the UN Model Regulations nor in the other modal regulations (ADR, RID, IMDG Code, ICAO TI) and not even in ADN Table A

III. Proposal for amendment

Part 3

Chapter 3.2

3.2.3 Table C

3. The following amendments should be made to Table C:

UN No. (with description/comments if necessary)	Column	Amendment	
1005	AMMONIA, ANHYDROUS	(5)	Replace “2.3+8+2.1” by “2.3+8+2.1+N1”
