

## **Proposal for editorial correction to ECE/TRANS/WP.29/GRE/2012/40**

(Supplement 1 to the original version of Regulation No. [127])

### **I. Proposal**

*Proposal for new paragraph 3.2.7.;* replace the text in ECE/TRANS/WP.29/GRE/1220/40 with the following:

**“3.2.7. The solid state junction(s) shall be the only element(s) of the LED light source that generate and emit light, either directly or via fluorescence-based conversion , when energized. “**

### **II. Justification**

This proposal is to improve consistency with a similar requirement in Regulation 37 that was amended by GRE before adoption.
