

## **Proposal for Correction to ECE/TRANS/WP.29/GRE/2013/47**

The text reproduced below extends the applicability of the proposed amendment in GRE/2013/47 to the 04 and 05 series of amendments to Regulation No. 48.

In the justification of this proposed amendment it was stated that it is not necessary to apply these amendments to the earlier 04 and 05 series of amendments that are still in force. However following discussions with OICA it has been concluded that retrospective amendment of the 04 and 05 series is required.

**"B. Proposal for Supplement 13 to the 04 series of amendments, Supplement 6 to the 05 series of amendments, Supplement 4 to the 06 series of amendments to Regulation No. 48 (Installation of lighting and light-signalling devices)"**
