

Proposal for amendment to Global Technical Regulation (GTR) No. 2

(ECE/TRANS/180/Add.2/Amend.4)

I. Rationale

Recently EU-Directive 2013/60 has been introduced in which chapter 5 of EU-Directive 97/24 is amended. One of the amendments concerns the introduction of reference fuels E5 (petrol) and B5 (diesel fuel). When stage C in 97/24-5 is being applied for, reference is made to GTR no. 2. In GTR no. 2 however, these reference fuels are not incorporated yet. This proposal aims at solving this omission by amending the reference fuel specification for alternative C in table 6-1.

II. Proposal

Note: The amended text is in **bold**

Table 6-1, amend to read:

"Table 6-1

Reference fuel specifications:

Performance requirements	Reference fuel specification
Principal requirements in paragraph 5.2.	See Annex 2 (A.2.1)
Alternative A in paragraph 5.3.1.	See Annex 2 (A.2.1)
Alternative B in paragraph 5.3.2.	See United States Code of Federal Regulations, Title 40, Part 86, section 86.513-2004 "Fuel and engine lubricant specifications" (40 CFR 86.513-2004)
Alternative C in paragraph 5.3.3.	Petrol (E5) and diesel (B5) reference fuels shall be specified in accordance with section A of Annex IX to Commission Regulation (EC) No 692/2008 (OJ L 199, 28.7.2008, p. 1.)
