Universal Access

9 INDUSTRY, INNOVATION
AND INFRASTRUCTURE

SDG 9.1 Develop quality, reliable, sustainable, and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all.

11 SUSTAINABLE CITIES
AND COMMUNITIES

SDG 11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable, situations, women, children, persons with disabilities and older persons.) and is at the heart of Habitat III New Urban Agenda.

Example: Support to Countries in Central Asia

Efficiency

7 AFFORDABLE AND CLEAN ENERGY

SDG 7.3 By 2030, double the global rate of improvement in energy efficiency.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

SDG 9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all.

SDG 9.4. By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities.

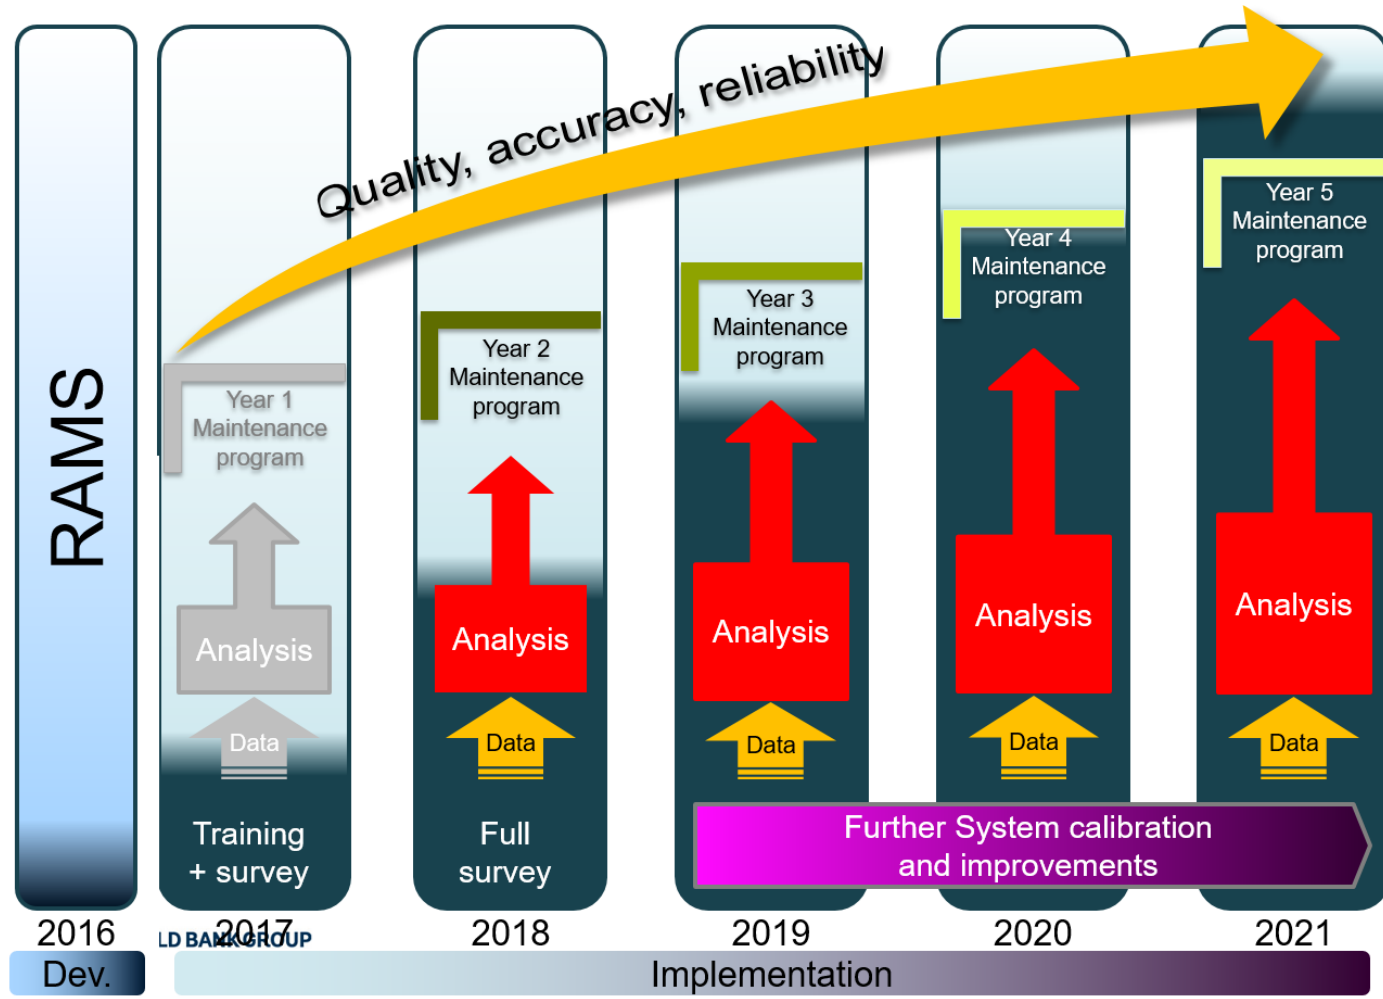

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

SDG 12.c Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions, in accordance with national circumstances, including by restructuring taxation and phasing out those harmful subsidies, where they exist, to reflect their environmental impacts, taking fully into account the specific needs and conditions of developing countries and minimizing the possible adverse impacts on their development in a manner that protects the poor and the affected communities.

- SDG 12.3 By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including postharvest losses.
- SDG 17.14 Enhance policy coherence for sustainable development.
