# Report of the Project Manager

**Andrzej Maciejewski**

February 23-26 th, Geneva

## Objectives of TEM project

- **to provide assistance to the integration process of transport infrastructure systems in Europe**
- **to improve national techniques and understanding of construction, management, operation and maintenance of motorways**
- **to facilitate co-operation between road managers and experts**

## 2015 activities

- **64th Steering Committee – 14-15 April, Geneva, Switzerland and workshop *on Road Safety***
- **TEM HEEP Area V meeting – 14-17 June, Gdansk, Poland and workshop on *Diverse sources of financing the infrstructural projects***
- **HEEP meeting – 12-19 September – Pittsburgh, USA**
- **65th Steering Committee – 16-17 December, Vienna, Austria and workshop on *Environmental Impact Assesment***

## Outcomes 2015 (1)

- **64th Steering Committee agreed to prepare 3 reports based on workshop:**
  - 1. Road safety**
  - 2. Strategy for the TEM project for next years**
  - 3. Diverse sources of financing the projects**
- **Exchange of knowledge and experiences with HEEP representatives and potential of cooperation in 2016**

## Outcomes 2015 (2)

- **Better representation of the national experts and transfer of knowledge**
- **Active participation and dynamic discussions**
- **Tangible results in a form of reports**
- **Building the potential for extensive cooperation with external partners**

## Challenges 2016

- **Greater involvement of national coordinators in the preparation of events**
- **Interactive cooperation between the meetings (by email, attending other conferences, involvement in the side events)**
- **Well-prepared and thoroughly planned strategy for the next years based on members needs**
- **Introducing innovative ideas based on experiences from other countries and partners**
- **Activation of inactive members**

## Plan of action 2016 (1)

- **Workshop and report on Building Information Modeling BIM technology – an innovative way of roads designing, constructing and managing**
- **Cooperation with Conference of European Road Directors CEDR in relation to BIM**
- **Involvement of HEEP representatives in TEM project activities in relation to BIM**
- **Active participation in Transport Research Arena – TRA 2016 – a scientific conference in Warsaw (April 2016)**

## Plan of action 2016 (2)

- **TEM HEEP Area V meeting**
- **Workshops on asset management and road maintenance, ITS**
- **Greater visibility of TEM Project**
- **Network report 2016**
- **Better internal involvement and cooperation**
- **Reports to be presented at Steering Committee in April 2016 (Warsaw)**

## New ideas

- **Please share your ideas and needs for the programme of work in 2016**
