

2015 Tripartite Sectoral Meeting Road Transport

Date and purpose

- Tripartite Sectoral Meeting 12-16 October 2015 on priority safety and health issues in the road transport sector – passenger and freight. It also included the discussion on the promotion of the IMO/ILO/UNECE CTU Code

Points for discussion

- Challenges experienced in the road transport sector in promoting decent work and productive employment with respect to the evolution of the employment relationship;
- Most pressing issues pertaining to safety and health in the road transport sector and how they are being addressed by ILO constituents;
- Solutions which could be identified to ensure decent work for: (a) passenger-; and (b) freight-transport workers;
- Good practices to promote social dialogue in the road transport sector; and
- Recommendations for future action by the ILO and its Members.

Meeting outcomes

- The Meeting's outcomes include the *Note on the Proceedings*, the *Conclusions*, two *Resolutions*
http://www.ilo.org/sector/activities/sectoral-meetings/WCMS_337096/lang-en/index.htm
- All Meeting outcomes have been submitted for the consideration of the 326th Session of the ILO's Governing Body to be held in March 2016.

- The industry's resilience in the future lies not only in its environmental efficiency, ICT developments, smart planning and infrastructural availability, but also on its **ability to address decent work challenges for professional transport workers**
