

DRAFT CORRIGENDUM 2 TO REGULATION No. 110
(An additional amendment to document TRANS/WP.29/2001/32)

(Specific components for CNG)

Transmitted by the secretariat

Note: At its forty-second session GRPE considered and adopted document TRANS/WP.29/GRPE/2001/6, however, with an additional amendment reproduced below. Therefore, in document TRANS/WP.29/2001/32 the text referring to paragraph 17.6.1. should be considered amended as follows.

English:

Paragraph 17.6.1., correct to read: */

"17.6.1. Rigid fuel lines shall be made of seamless material: either stainless steel or steel with corrosion-resistant coating."

French:

Paragraphe 17.6.1., modifier comme suit:

"17.6.1. Les tuyauteries rigides doivent être constituées d'un matériau sans soudure: soit de l'acier inoxydable, soit de l'acier avec un revêtement résistant à la corrosion."

Russian:
