- 11,990 WS calls so far in 2024

→ *Web service usage trend lower than 2022/2023*

Number of web service requests over time

ITDB updates

Recent achievements:

- Workforce mostly focused on eTIR National Application project implementation
- Adaptation of EU customs office data import (specific notes and handling of data format discrepancies).

Activities planned for coming month:

- Coordination of China customs office data import
- Study of Uzbekistan request for extended web services to improve holder data quality
- Study of ITDB data management process for possible streamlining

Thank you!
